## **Reading**

- This week we read a variety of Halloween stories and while practicing the skills we have learned in our readers workshop.

## **Language Arts**

- This week we finished up our unit on nouns. The chapter test will be next week on Tuesday. The students will take home their packet to review on Monday.

## **Math**

- This week in math we have been working on subtraction. The students will have their chapter test next Thursday.

## **Social Studies**

- This week in social studies we concluded our talk on fire safety.

The students each wrote about why fire safety is important and what they learned. Thursday we had a firefighter come and visit our class. I'm sure your child was excited to tell you about that! 😊

## **Religion**

- This week we have been preparing for All Saints Day. The students all shared their saints reports with the class. Practice in the church has been coming along! I am very proud of the students. Please join us Wednesday morning for the All Saints Mass if you are available.

## **Notes:**

- Next week there will be no reading log. With Halloween and All Saints Day the students have enough to focus on! The only homework next week will be to study spelling words, simple solutions and prepare for the English and Math chapter tests. The tests will be spread out so the students will have plenty of time to study! We also will be doing a lot of review in class next week! 😊
