Reading & Language Arts

- This week we wrote a book about our trip to the apple orchard. The students wrote a rough draft and then typed their final draft on the iPad. We are continuing to work on our illustrations. These books are going to look fantastic!

Math

- This week we concluded our first chapter of math, and took the unit test on addition strategies.

Science

- In preparation for the science labs we will be conducting this year, we took time to focus on our five senses. We were brainstorming ideas of how and why a scientist uses their senses while experimenting.

Religion

- This week we talked about Ordinary Time. The children practiced ways they can give thanks to God for His gifts He has given to us.

Notes:

- Picture Day is Monday!!! Please make sure your child is **dressed up** for their picture.

- Due to a change in schedule, we will be having gym on Tuesday afternoon next week, not Wednesday.

- Please consider donating to the Soup-er Stadium Challenge. First grade has been assigned to bring canned vegetables.

- We had a GREAT trip to the library today! The students were all very respectful and followed the rules in the library. There were multiple librarians who commented on how quiet they were walking through the library. Check my website for some pictures from our trip! ***I sincerely apologize that I did not get the library cards handed back to the students at the end of the day. We immediately packed up when we got back to school, and it slipped my mind. They will be coming home with the students on Monday. ***
